

Ventilate your attic and protect your home with Solar Powered Roof & Attic Ventilation

A well-ventilated attic offers year-round benefits to the homeowner. During the summer months, when attic temperatures can easily reach 140° or more, a well-ventilated attic can reduce home energy costs, reduce wear and tear on cooling equipment, and help prolong the life of roofing components (sheathing, felt, and composition shingles). During the winter months, proper ventilation prevents moisture-laden air from being trapped in the attic, thereby reducing the chance of the formation of dangerous mildew and mold.

Choose from Roof Mount or Gable Mount Vents

ROOF MOUNT AND SOLAR PANEL

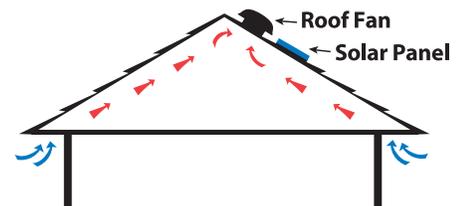

Model: VX1000SOLARROOF

Includes Solar Panel and Roof Mount Attic Ventilator

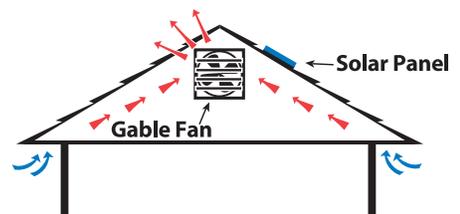

ROOF MOUNT VENTILATOR

- 12.6 watt, 18 volt, thermally protected DC motor
- provides up to 1000 CFM (sufficient for a 1550 sq ft attic)
- 13" high-efficiency fan blades
- dome constructed of heavy-duty galvanized steel in attractive powder-coated weathered grey finish
- expanded steel mesh grill to protect against birds and rodents
- 5-year limited warranty on DC motor

GABLE MOUNT VENTILATOR

- 12.6 watt, 18 volt, thermally protected DC motor
- provides up to 1000 CFM (sufficient for a 1550 sq ft attic)
- 13" high-efficiency fan blades
- mounts behind existing louvers
- shroud constructed of heavy-duty galvanized steel
- 5-year limited warranty on DC motor

GABLE MOUNT AND SOLAR PANEL

Model: VX2515SOLARGABL

Includes Solar Panel and Gable Mount Attic Ventilator

MULTI-CRYSTAL SOLAR PANEL

- 12.6 watt output
- high-impact tempered solar cell casings to resist hail, flying debris and impacting winds
- silicone crystals in anodized aluminum frame
- 25 ft power cord with easy connect clips
- 10-year limited warranty

Additional solar panels are easily linked and will increase the RPMs of your fan. Order separately as: VX.SOLARPANEL

Easy Installation...No Electrical Wiring...No Energy Costs—EVER!
