

REVERSIBLE DAMPER WALL VENT

VERSATILE VENT FOR INTAKE OR EXHAUST

- ◆ Positive seal backdraft damper with reversible flow direction.
- ◆ Economical solution for air balancing.
- ◆ Provides supplemental combustion air intake.
- ◆ Ideal for spot ventilation needs.
- ◆ Insect screen installed.
- ◆ Quality constructed in galvanized or aluminum.
- ◆ Extra long throat (with damper in place).

REVERSIBLE DAMPER WALL VENT

OPTIONS:

- ◆ Painted or paintable hood available.
- ◆ Heavier gauge materials.
- ◆ Screen sizing (1/8", 1/4", 1/2").

The RDWVG is built in two sections to allow job site reversing of damper for intake or exhaust applications.
